**Please note:**

- **We are no longer a Yellow Fever centre. As such, we do not issue Yellow Fever certificates. If the patient has previously been given the Yellow Fever vaccine and if this is logged on their vaccination history, please provide the patient with a copy of their vaccination list and advise that they attend a Yellow Fever centre to have the certificate re-issued/issued.**
- We are unable to offer appointments to test for your blood group.
- If you are a health professional, Hepatitis B vaccination and status should be obtained through an Occupational Health service. This is not a service that we are able to provide to our patients.
- Nurses cannot ordinarily administer single vaccinations that you bring in.
- Our GPs do not provide a passport signing service.
- For any other requests please discuss with our reception team.
